

So, how do I mix it?

We're glad you asked. It's easy. Grab your shaker cup.

We recommend shaking your nanos with cold water or unsweetened almond milk, but the choice is truly up to you. (Some choose to add into smoothies or even blend into yogurt.)

Regardless of how you shake it up, be sure to do it daily. These amazing nutrients are designed to help keep you healthy everyday, for lifelong wellness.

Cheers to your health!

Ok, so when do I take them?

Drink your "nanoshake" in the morning, nanominerals after lunch, and take nanolean inbetween your meals.

***Or use this amount to mix your favorites.** (They taste great all together!)
